### Port Notes

**1992:** Similar to 1991 but only declared by those who did not do so in that year. Again, a small vintage that needs a few more years.

**1994:** The climate was near perfect in the Douro for the making of top quality port, the late frost in May reducing yields by 30% and making the small quantity of Port produced even more concentrated than usual. Big full bodied wines with excellent staying power and classical potential summarizes this vintage - some drinking now.

**1997:** Superb quality, but quantities very limited from this vintage, which produced smaller yields than in 1994 - a vintage for the medium to long term.

**2000:** The wines are full and rich in the mouth with fresh blackberry and red plums. Laying down the wines for fifteen to twenty years will certainly be rewarded.

**2003:** After the magnificent hot summer they had in the Douro and we had here, conditions resulted in wines that will have up-front appeal but maybe a reduced life span?

**2007:** Looks set to join the ranks of the great vintage ports. Its wines already imbued with an extraordinary purity of flavour, once again a small volume but will age well into the future.

**2009:** Split vintage, low yields. Firm and tannic structure and good concentration. Very rich and round.

**2011:** The weather conditions throughout the whole growing season have been described as perfect. The 2011 vintage is being lined up to be amongst the greats.

**2016:** A generally declared vintage, with the wines showing exuberant fruit, racy acidity and tightly focussed structure.

#### LAST DECLARATION

**2017:** A rare back to back general declaration thanks to a very warm, dry season leading to intensely concentrated wines.

## SINGLE SERVE BOTTLES
